

Attractive Spots

Mito peninsula filled with flowers ...*Marked area

- Plum flowers • Chrysanthemum grown with artificial light/Murou district, around Futaomote district
- Cheery blossoms/ Hamajyo district Shiroyama, Futaomote district ~ prefectural roadside in Murou, Tanijiri district Landfill site, Kamano,
- In front post office, prefectural road side
- Mountain cherry blossoms/ around Yoshino Tateyama

Murou/Futaomote district

Mito peninsula filled with flowers starts from plum flowers! Although the number of growers have decreased recently, you feel refreshed by coming season when you see white pretty flowers. Likewise, although the number of growers of chrysanthemum grown with artificial light have decreased, the greenhouse that shines clearly in the darkness is spectacular.

Nibu community center/a hall of the old Nibu elementary school ... ⑤ next to Seiganji

The hall built about 70 years ago is old-fashioned and brings back memories. It is worth seeing.

Yoshino district/ruins of Aratama shrine

... ⑬ Climb the stairs beside Shohoji

Approach across the small stone bridge beside Shohoji makes you feel nostalgic. The distance to climb the stone steps is exactly good for urban citizens. Take a little rest and look back, you can have a view of the Yoshino countryside. Ground of shrine left with memories of children's sumo and village kabuki makes us to remember the time when we were children and feel so nostalgic! ... A spot where original landscape of Japan can be glimpsed.

Tanijiri- Shirahama - Kounoura - Yoshino walking course

13 ~ 15 km ... a varied course filled with nature. It's nice to go by car, but leisurely walking with your own pace is good!

Fishing spots with families

Although fishing can be available anywhere in Mito peninsula, you can experience safe and fun fishing especially around the family sight fishing mark of the attraction map.

A sacred place 88 temples fudasho ... ⑩⑪⑫⑬⑭⑮

Publication/ Shodoshima town office

① Shodo-shima Furusato-mura/ Road Station/Sea Station

Parking available
A camping/participatory recreation zone with facilities for sports and leisure in the 88 hectares site. Taking advantage of rich natural environment, this zone has the hand stretched somen noodle house, an auto campsite, a family pool, a playground, a gymnasium, a site for strawberry picking, a lodge managed by a local government, the lodge and the restaurant. The large fine view bath where you can watch sunset is also popular!
... The western base of walking in Mito peninsula.

② Ikeda no Sajiki ③ Kameyama Hachimangu Shrine

Parking available
The stone wall Sajiki, which is about 400 meters from the Kameyama Hachimangu Shrine, is the place for spectators of the autumn festival which held on October 16th every year. It is estimated this stone was constructed before 1812. A masterpiece of Sajiki with natural stone piled up. Government designated important tangible folk-cultural property
Chinese juniper in Kameyama Hachimangu Shrine is one of the biggest trees in the island, presumed to be over 400 years old/town designated natural monument

④ Shishigaki of Nagasaki

Constructed across the island from the middle to late Edo period, because the districts suffered from the damage of agricultural crops by deer, boar and others. The Shishigaki of Nagasaki remains almost complete and is a precious cultural heritage and a town designated tangible folk cultural property

⑤ Cycad in Seiganji

Parking available
There is a large cycad, more than 1,000 years old, in Seiganji Shrine in the Futaomote district. The height of the cycad is more than 7.5 m and the circumference around the root is 8 m and it is a government designated natural monument

⑥ Remaining stones from the construction of Osaka Castle

These stones were quarried for the first phase of construction of Osaka Castle by the Tokugawa shogunate as a stone cutting site under the rule of Kurume feudal lord Chikugonokami Tanaka. The remaining stones now decorate sites near the coast. A town designated/historic site

Mito Peninsula Attraction points MAP

⑬ Shodo-shima Olive Park/Road Station

Parking available
An olive palace filled with the atmosphere of Greece. There is the olive memorial hall, a herb garden, a craft hall, a accommodation lodge and a hot bath facilities on the site of about 9 hectares. Olive trees and about 120 kinds of herbs are cultivated in the park and you can enjoy making crafts and herbal tea.
A sunny sparkling view from the square with a windmill is superb! ... The eastern base of walking in Mito peninsula.

⑦ Hanasuwa

There are two beautiful islands, one large and one small, which are floating snugged against each other in the offshore of Kamano district. In 1909, a reporter of an Osaka newspaper introduced those islands in the paper as 'Hanasuwa, beautiful islands floating in the sea', since then those islands were called Hanasuwa./ Prefectural Designated/Natural monument (feature by marinedenudation)

⑧ Jizozaki Lighthouse

Parking available
Jizozaki Lighthouse was established in 1951 at Shakaga-hana, the southern edge of Mito peninsula, for the safety of ships passing by. All around, there are scenic tourist attractions which occupy a corner of the Setonaikai National Park and when you go down to the beach you may be able to see a large ship a short distance away. It is also a reservoir of wild deer and birds, and you may encounter a cute deer family.

⑨ Uji-shrine shasou

Gongen Point in Konoura district is 60 meters in altitude, conical shaped hill, covered with meadow and a mixture of ibuki (Chinese juniper), Japanese privet and pine can be found. This is also a rare natural habitat in Japan of ibuki, and the number of roots of ibuki numbers about 400. / government designated natural monument

Family fishing
